

The Perfect "Age-In-Place" Med Dispenser

Peace of Mind ... Knowing that Medications ARE Dispensed!

Rest assured knowing that your loved one's medications are dispensed on time, in the right dosage and with the right method using this state-of-the-art MD2 medication dispenser.

Through special arrangement with Visiting Angels Living Assistance Services, you can take advantage of IMD's technological breakthrough in medication compliance with the MD2. Some of the features include:

MD.2 Monitored Automatic Medication Dispenser

- ▶ Alerts Caregiver/Family by phone if medications are not dispensed or if MD.2 is running low on medications.
- ▶ MD2 is about the size of a large coffeemaker - fits easily on a countertop
- ▶ Holds 60 medication cups, dispenses up to 6 cups per day (re-usable cups included)
- ▶ Stores 3-4 weeks of medications for most patients
- ▶ Highest capacity - each medication cup has a capacity equal to 50 aspirin sized pills
- ▶ Alerts/phones caregiver when a refill is needed
- ▶ 3-Way Reminders: VOICE, TEXT, BLINKING LIGHT
- ▶ Pre-programmed text/voice messages such as "take with food"
- ▶ Lockable cabinet keeps medications safe (2 keys included)
- ▶ Early Dose feature allows dosing flexibility
- ▶ Built in Power Backup (alternative power for up to 18 hours)
- ▶ Support Center monitoring provides on call 24/7 customer service (via toll-free number)
- ▶ Easy Set-Up

The Home Safety Council® (HSC) has presented a Commendation Award for Product Innovation for Consumer Safety based on the MD.2 Personal Medication Dispenser and Monitoring System

MD.2

Thank you for creating this product. My mother is able to stay at home and take her medication thanks to this pill machine. She was recently declared cognitively unable to take her medications from a traditional pill box. The visiting nurses have commented on how much better she is doing now that she is getting the correct medication at the correct time. Prior to having your specialized pill machine, my mother was inadvertently taking medication from the wrong day or time or getting confused and trying to put the medication back into the regular pill bottles and fill the pill boxes herself.

This machine has eliminated all of that confusion for her and allows her to live at home and take her medication without supervision. Thank you for giving my mother additional days/months/years of independence. Thank you.

T.M. (NH)
